DETAILED ACTION

Response to Amendment

1. This office action is in response to Amendment filed on June 08, 2005:
2. Claims **1, 4 – 10, 13, 14** and **16 – 18** have been amended.
3. Claims **19 – 34** have been added.
4. Claims **1 – 34** are pending in this application.

Election/Restrictions

5. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group I. Claims **1 – 18, 27 – 34**, drawn to memory device, classified in class **257**, subclass **79**.

Group II. Claims **19 – 26**, drawn to method of using memory device, classified in class **345**, subclass **31**.

6. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product as claimed in claim 1 of group I can be used without the optical guide as claimed in claim 21 of group II.

7. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

8. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Priority

9. Acknowledgment is made of applicant's claim for foreign priority under 35 U.S.C. 119(a)-(d). The certified copy has been filed on August 22, 2003.
